**REVOCATION AND POWER OF ATTORNEY**

The Honorable Commissioner for Patents  
U.S. Patent and Trademark Office  
Customer Service Window  
Randolph Building  
401 Dulany Street  
Alexandria, VA 22314

Dear Sir:

By virtue of an Assignment (copy attached) executed on June 27 and July 6, 2005, and submitted to the U.S. Patent and Trademark Office for recordation on September 1, 2005, Mentor Graphics Corporation is the owner of all right, title, and interest in and to the above-identified patent application.

On behalf of the assignee, Mentor Graphics Corporation, I hereby revoke any and all previous powers of attorney and hereby appoint, with full power of substitution and revocation, the attorneys at Customer Number 22907 (Banner & Witcoff, Ltd.), both jointly and severally, to transact all business in the U.S. Patent and Trademark Office in connection with the above-captioned patent application.

## UNITED STATES PATENT PROPERTIES

WHEREAS, Aptix Corporation (hereinafter Assignor), a corporation organized under the laws of the state of California, having offices at 1249 Innsbruck Drive, Sunnyvale, CA 94089, warrants and states it is the sole and exclusive owner of the following United States Patents and United States Patent Applications (hereinafter called the Patent Properties):

Publication No.	Title
6,160,276	Double-sided programmable interconnect structure
5,973,340	Interconnect substrate with circuits for field-programmability and testing of multichip modules and hybrid circuits
5,903,041	Integrated two-terminal fuse-antifuse and fuse and integrated two-terminal fuse-antifuse structures incorporating an air gap
5,661,409	Field programmable printed circuit board
5,654,564	Interconnect structure with programmable IC for interconnecting electronic components, including circuitry for controlling programmable IC
5,640,308	Field programmable circuit module
5,544,069	Structure having different levels of programmable integrated circuits interconnected through bus lines for interconnecting electronic components
5,504,354	Interconnect substrate with circuits for field-programmability and testing of multichip modules and hybrid circuits
5,451,811	Electrically programmable interconnect element for integrated circuits
5,432,708	Multichip module integrated circuit device having maximum input/output capability
5,414,638	Programmable interconnect architecture
5,413,489	Integrated socket and IC package assembly
5,412,261	Two-stage programmable interconnect architecture
5,406,138	Programmable interconnect architecture using fewer storage cells than switches
5,400,948	Circuit board for high pin count surface mount pin grid arrays
5,400,294	Memory cell with user-selectable logic state on power-up
5,400,262	Universal interconnect matrix array
5,384,433	Printed circuit structure including power, decoupling and signal termination
5,383,787	Integrated circuit package with direct access to internal signals
5,377,124	Field programmable printed circuit board
5,371,390	Interconnect substrate with circuits for field-programmability and testing of

5,367,482	High voltage random-access memory cell incorporation level shifter
5,341,267	Structures for electrostatic discharge protection of electrical and other components
5,321,322	Programmable interconnect architecture without active devices
5,319,261	Reprogrammable interconnect architecture using fewer storage cells than switches
5,315,545	High-voltage five-transistor static random access memory cell
5,313,021	Circuit board for high pin count surface mount pin grid arrays
5,311,053	Interconnection network
5,301,147	Static random access memory cell with single logic-high voltage level bit-line and address-line drivers
5,264,741	Low current, fast, CMOS static pull-up circuit for static random-access memories
5,257,239	Memory cell with known state on power-up
5,239,503	High voltage random-access memory cell incorporating level shifter
5,077,451	Custom tooled printed circuit board

WHEREAS, Mentor Graphics Corporation (hereinafter Assignee), a corporation organized under the laws of the state of Oregon, having a place of business at 8005 SW Boeckman Road, Wilsonville, OR 97070-7777, desires to acquire the entire right, title and interest in and to said Patent Properties and worldwide rights in the inventions described therein;

NOW, THEREFORE, be it known that for good and valuable consideration, receipt of which is acknowledged, Assignor does hereby sell, assign, transfer to Assignee and its successors, assigns and legal representatives, the entire right, title and interest in and to the Patent Properties identified above, including all worldwide rights thereto, rights of priority therein and rights to file for protection of inventions set forth therein under the Patent Cooperation Treaty and under any other treaty or laws of any country, and in and to any and all letters patent which have been, or may be, granted therefor, and all divisionals, continuing applications, reexaminations, reissues and extensions thereof; the same to be held and enjoyed by Assignee, its successors, assigns and legal representatives to the full end of the term or terms for which any and all letters patent may be

granted, together with all claims against third parties for damages by reason of past infringement of any one or more of said Patent Properties with the right to sue for and collect the same for Assignee's own use and for the use of Assignee's successors, assigns and other legal representatives;

ASSIGNOR hereby authorizes and requests the Commissioner of Patents and Trademarks of the United States to issue any and all letters patent of the United States resulting from said Patent Properties and any confirmations, divisions, continuations, reexaminations, reissues or extensions thereof, to Assignee, or if directed by Assignee to Assignee's successors, assigns or legal representatives;

ASSIGNOR covenants and agrees in favor of Assignee and its successors that at any time upon the request of Assignee or its successors, Assignor will, at Assignee's expense, communicate to Assignee or its successors all information known to Assignor relating to the Patent Properties, execute and deliver all papers, make all rightful oaths, testify in any legal proceedings and perform all other lawful acts necessary: (i) to execute papers reasonably required by Assignee to perfect title to the Patent Properties, including divisions and continuations thereof and to any and all letters patent which may be granted therefor or thereon, in any country, including reissues or extensions, in Assignee or its successors; (ii) to assist Assignee or its successors in obtaining, maintaining, confirming or enforcing by reissue or reexamination a grant of a valid United States Patent to Assignee on said Patent Properties; and (iii) to assist Assignee in connection with any interference which may be declared concerning said Patent Properties and any letters patent which may be granted therefor or thereon, or any confirmation, division, continuation, reexamination or reissue thereof;
